

2nd grade

Weekly Report

Week of August 22nd

OUR LEARNING
SCIENCE: We continued talking about food chains. Students understood the difference between producers and consumers. Additionally, we have been study for our Science term test.

ENGLISH: We reviewed the demonstrative pronouns (this, that, these, those). Additionally, we identified and wrote words with short and long o spellings. Finally, we read and discussed about a biography.

LENGUAJE: Leímos poemas, identificando su estructura y también sus rimas. Hemos repasado las palabras compuestas en guías. Por último, repasamos los sustantivos propios, comunes y adjetivos calificativos.

SOCIAL SCIENCE: Esta semana tuvimos nuestra evaluación de contenido. Adicionalmente, estudiamos y repasamos conceptos clave de la Zona Norte, Centro y Sur del país.

MATHS: We did feedback on the last test evaluation, learning from our mistakes by correcting them. Then, we used the counter and expanded method to divide 2 digit numbers with reminders. We had a summative assessment in pairs with the objective of using language associated with direction and movement.

COMPUTING: Los alumnos aplicaron el nuevo bloque de "Decir" con los bloques anteriores para crear una animación en Scratch Jr. Hemos integrado el conocimiento del uso de los bloques de girar el personaje y saltar, ya que tienen un funcionamiento parcialmente distinto

OBSERVATIONS/REMINDERS

Recordamos solamente escribir al correo institucional.

ccastillo@kendal.cl
