

2nd grade

Weekly Report

Week of August 8th

OUR LEARNING

SCIENCE: We continued talking about food chains. We understood the difference between producers and consumers. Additionally, we have been practicing for our Science Fair.

ENGLISH: We read and wrote about the Sun, Earth, Moon and Stars. Additionally, we practiced past simple test.

LENGUAJE: Empezamos a ver la nueva letra “Ñ”. Hemos trabajado oraciones y palabras que contienen “ñ” en sus pizarras individuales y cuaderno de caligrafía.

SOCIAL SCIENCE: Esta semana aprendimos los patrimonios naturales de la Zona Central de nuestro país: Parque Nacional Radal 7 tazas, Parque Nacional “La Campana”.

MATHS: We solved our Maths Test. To solve $35 \times 3 =$, learners used repeated addition $35 + 35 + 35 = 105$, a number line, place value counters and used arrays. They estimated and multiplied 2-digit numbers by 2, 3, 4 and 5

COMPUTING: Esta semana integramos el aprendizaje del bloque de repetición y creamos un programa en Scratch Junior el cual cambia de personaje, fondo y escenario, esto para dar el efecto que el personaje camina entre escenarios distintos.

OBSERVATIONS/REMINDERS

Recordamos solamente escribir al correo institucional.

ccastillo@kendal.cl
