OBSERVATIONS/REMINDERS

Welcome back to our community, we are so glad of having you all back. Let's support our children during this process. This week, we are taking our diagnostic tests! Remember that students do not have to study for these tests, they are just to remember what they saw last year.

Thank you for your support and dedication! You are truly the best.

UPCOMING EVENTS/EVALUATIONS:

- March 12th: Parent-teacher meeting
