

2nd grade Weekly Report

Week of October 10th

OUR LEARNING

SCIENCE: This week we studied for our test about forces, magnets and magnetic materials. On Friday, we took the test, and did a really good job!

ENGLISH: We started Unit 8: Home sweet home. We learned about different types of houses and part of houses. Vocabulary: House, tree house, apartment, igloo, mansion.

LENGUAJE: Hemos leído una obra dramática. También, comenzamos con reconocer verbos y su importancia.

SOCIAL SCIENCE: Conocimos el concepto "Pluricultural", y lo aplicamos a lo aprendido sobre los pueblos originarios. Adicionalmente, seguimos reforzando la ubicación de los distintos pueblos. Ejemplos: Changos, Aymaras, Atacameños, Mapuches, Pichunches, Pehuenches, Selk'nam, Huilliche.

MATHS: We developed our first test of the current term. We started with a new unit where we understood and explained that fractions are several equal parts of an object or shape and all the parts, taken together, equal one whole. Example: How many balls are $\frac{1}{3}$ of 27 balls?

COMPUTING: Repasamos la distribución del teclado viendo las teclas que más se utilizan, en qué momento y la correcta posición de las manos; terminamos con un pequeño dictado.

OBSERVATIONS/REMINDERS

Recordamos solamente escribir al correo institucional.

ccastillo@kendal.cl

Maths:
mfigueroa@kendal.cl

Lenguaje:
lavarez@kendal.cl

Vocabulary:

Science: Friction, gravity, forces, push, pull, surface, grip, slippery, wood, fall, newton.

UPCOMING EVENTS:

October 17th: No school – Happy teachers' day!
