

2nd grade

Weekly Report

Week of September 11th

OUR LEARNING

SCIENCE: Students learned where friction happens and what it does. We learned the difference between gravity and friction.

ENGLISH: We identified how spiders and insects are similar and different. Vocabulary: Insect body parts; leg, antennae, wings. Additionally, we practiced our time for english song: "What is this feeling?"

LENGUAJE: Leímos y comprendimos una obra dramática, vimos su propósito e identificamos sus características y elementos.

SOCIAL SCIENCE: Esta semana repasamos lo aprendido sobre pueblos originarios del territorio nacional. Ejemplos: Changos, Aymaras, Atacameños, Mapuches, Pichunches, Pehuenches, Selk'nam, huilliche

MATHS: We got prepared for the test by playing with multiples in a cube, and through a worksheet. Learners developed the Final term test. We analyzed the test and gave feedback.

COMPUTING: Repasamos los principales conceptos vistos este trimestre y comentamos lo que trabajaremos al regresar de vacaciones

OBSERVATIONS/REMINDERS
